

CONNECTICUT

PROGRAMS AND SERVICES

The Epilepsy Foundation of Connecticut leads the fight to stop seizures, find a cure and overcome the challenges created by epilepsy.

Education

Training:

Accurate and up to date information is presented about seizures, appropriate first aid techniques, treatment options, and psychosocial issues for professionals, community groups, families and individuals.

Webinars:

Local professionals present on topics relevant to the Epilepsy community. Recordings are archived on our website.

Information and Referral

A trained staff member is available to answer questions, provide informational materials and refer to community resources.

Camp Courage

A week long over night summer camp experience for children with epilepsy ages 8-21.

Advocacy

Promote policies on both the state and federal levels that improve the lives of the epilepsy community in Connecticut

Student Advocacy:

Attend school PPT meetings to assist the staff in understanding how epilepsy affects the entire student.

Teens Speak Up:

Opportunity for teens with epilepsy and their parents to visit the nation's capital, receive advocacy training, meet with their legislators, and tell their personal stories.

Support

Groups:

Monthly virtual groups are offered for adults and parents, young adults, and teens.

Telephone Networks:

Parents, families, and individuals are linked together to gain support while furthering their understanding of epilepsy.

Managing Epilepsy Well (MEW):

Evidence based epilepsy self-management programs that improve the quality of life for people with epilepsy. Programs currently offered include Project UPLIFT and HOBSCOTCH.

Halyn Murtha Family Assistance Fund:

A financial assistance fund created in honor of Halyn Murtha to help people with epilepsy in need of financial assistance to cover the cost of epilepsy treatment and care services.
